Introduction

Tegbar Organization is dedicated to enhancing healthcare access for underserved communities in Ethiopia, ensuring that medical care is available to everyone regardless of financial or social standing.

Tegbar Organization was established to address the healthcare inadequacies faced by underserved communities in Ethiopia. We recognized that many individuals lack access to essential medical services, and even those who do are often confronted by prohibitive costs, leading to preventable suffering and loss of life. Additionally, specialized medical care is limited, prompting many Ethiopians to seek treatment abroad.

To bridge this gap, our organization is committed to providing equitable healthcare solutions, ensuring that financial constraints do not hinder anyone from receiving medical care. We collaborate with local healthcare providers and partner organizations to offer support, including patient advocacy and financial assistance. Our dedicated volunteers strive to improve health outcomes and foster a healthier, more equitable future for all Ethiopians.

This annual report aims to provide a comprehensive overview of our progress over the past year, with a focus on enhancing healthcare access and quality. The report will also showcase the tangible impact of our various initiatives, illustrating how they have positively influenced the communities we serve. By sharing these insights, we hope to inspire further collaboration and support for our mission to transform healthcare for all Ethiopians.

Our Mission

Our Mission

Tegbar Organization is a non-profit organization with a mission to improve healthcare access for individuals and families, especially those who are economically disadvantaged. We strongly believe that healthcare is a basic human right, and we are dedicated to advocating for access to quality medical care.

Our Vision

Our vision is a world where access to healthcare is not limited by one's financial status. We believe that everyone, regardless of their background, should have the opportunity to receive the care they need to lead healthy, fulfilling lives.

Programs We've Launched:

The Problem We're Addressing:

In Ethiopia, many individuals from low-income and marginalized communities lack access to essential healthcare services, particularly for critical conditions requiring surgeries or ongoing treatments like dialysis. This gap leads to preventable deaths and suffering.

Our Strategy:

- **Funding Medical Interventions:** We focus on sponsoring life-saving surgeries and treatments that are out of reach for many families.
- **Advocacy and Awareness:** Working to influence health policy and increase public awareness about healthcare rights and available services.
- **Partnerships:** Collaborating with medical institutions, NGOs, and local communities to expand our reach and effectiveness.

Dialysis Support Program

We launched our dialysis support program to pay for dialysis sessions for financially struggling people.

Partnership Program

We launched our partnership program to collaborate with other organizations and enhance our capacity to deliver specialized medical treatment.

Medical Treatment Funding

We launched our medical treatment funding program to cover the cost of medical treatments for financially disadvantaged people..

Community Outreach Program

We launched our Community of reach program to enhancing healthcare awareness in Ethiopia by conducting a wide range of community outreach programs

Results of Our Actions:

Financial Impact:

- **Fundraising Success:** Raising over \$10,000 has been a testament to the growing support for our cause. This financial milestone was achieved through a blend of individual donations and fundraisers. These funds are critical, directly translating into medical treatments and advocacy work.

Program Achievements:

- **Dialysis Treatments:** By funding 36 dialysis sessions, we've not only extended life but also quality of life for individuals suffering from kidney failure. Each session represents a battle won against the chronic illness that plagues many in under-resourced areas, where dialysis machines and the treatment itself are luxuries.
- **Life-Saving Surgery:** The heart surgery for a one-year-old boy was a beacon of hope. This program exemplifies our approach - identifying critical cases, mobilizing resources, and collaborating with medical professionals to deliver what was once thought impossible for families living below the poverty line. The surgery not only saved a life, it will also inspire our community to rally around similar causes.
- **Partnership with Healing Valves Ethiopia:** We have established a strategic partnership with Healing Valves Ethiopia (HVE), an organization dedicated to providing open-heart surgery for Ethiopian youth suffering from rheumatic heart disease (RHD).

Next Steps:

This annual report not only celebrates our achievements but also acknowledges the journey ahead. We aim to build trust with funders, supporters, and beneficiaries by sharing our successes, challenges, and future directions. Our commitment remains strong to learn, adapt, and grow in our mission to provide equitable healthcare in Ethiopia. We invite our community to join us in this ongoing endeavor to make a tangible difference in people's lives.

01

Program Expansion

Increase the number of dialysis sessions and surgeries we fund, particularly focusing on pediatric care through our partnership with HVE.

02

Education & Advocacy

Launch campaigns to better inform communities about healthcare rights and our services.

03

Fundraising

Aim to double our annual fundraising to expand our reach and deepen our impact, ensuring more treatments and educational programs can be supported.

We'd like to thank all our donors for their generous support.

As we reflect on 2024, we are grateful for the unwavering support of our donors, volunteers, and partners. Together, we are making a meaningful difference in the lives of many and building a healthier future for Ethiopia. Thank you for being a part of our journey.
